To help maintain a safe, orderly, and distraction-free learning environment, we would like to remind students and families of our school's food delivery policy.

Food and other items may **only** be delivered during the school day by a student's **parent or guardian**, and all deliveries must be made **through the main office**. Deliveries from outside services or other individuals are not permitted.

This policy applies to **all students and all external delivery services** and covers the **entire school campus**, including classrooms, hallways, common areas, and outdoor spaces during school hours. The purpose of this policy is to ensure the safety and well-being of students and staff, promote healthy habits, and minimize disruptions to instruction.

This policy is outlined in full in the **Student Handbook**, which is available to all students and families for reference.

We appreciate your cooperation and support in helping us maintain a positive learning environment for all students.
